

## Acknowledgements

The [National Science Foundation](#) who funded the RET project

Although it is impossible to mention everyone at [MIT Haystack Observatory](#), we wish to cite the following for their assistance in this project:

**Joseph E. Salah**, Former Director and current Research Scientist  
**Philip Erickson**, Research Scientist in Atmospheric Sciences Group  
**Anthea Coster**, Research Scientist in Atmospheric Sciences Group  
**Bill Rideout**, Research Scientist in Atmospheric Sciences Group  
**Larisa Goncharenko**, Research Scientist in Atmospheric Sciences Group  
**Arthur Niell**, Geodesy and VLBI  
**Roger Cappallo**, Project Engineer Geodesy  
**Preethi Pratap**, Radio astronomy, applications of small radio telescope  
**Phil Shute**, SRT and Galaxy Rotation  
**John Ball**, Educator  
**Doug Harrison**, Construction and Materials  
**Richard Crowley**, Systems Administrator

The REUs, whose comments guided us in the right direction.  
All of the former RETs whose invaluable support encouraged us.

And finally,

**Ms. Madeleine Needles**, Coordinator of pre-college outreach and teacher interactions whose guidance and positive support has made the summer at Haystack an extraordinarily enjoyable experience.

Thanks,

Esther Alexandra Santos, Burlington High School, Burlington, MA

Peter Jeffery Nassiff, Burlington High School, Burlington, MA

Research Experience for Teachers for 2006
