August 21, 2017: the great American eclipse

- Rare opportunity to examine our state of knowledge about fundamental processes responsible for ionospheric behavior
  - Studies at Haystack Observatory: Evans 1965, Salah 1986
- Unique opportunity to leverage advances in research instrumentation and modeling
- Best possible coverage
Upcoming special sessions

• Fall AGU meeting – December 11 & 13, 2017, New Orleans
• AMS (American Meteorological Society) meeting, January 8, 2018, Austin, TX
• GRL special issue: submission open until December 31, 2017; 20+ papers expected
What do you see?
